## DAILY RE:Create ACTIVITIES

### Cardboard Chaos

Play in the cardboard and make great things. This area is ideal for younger audiences (in age and at heart), as well as a working space. Enjoy the tools and items that may be used for exploring creativity and art-making.

### Let's weave

Everyone is invited to come and try weaving on our community loom. No weaving experience required. Bring your own materials or use the ones we have available.

### Free books with reviews

Do you love the creativity of literature? Bring in or pick up a book from the free book exchange shelf. But instead of just dropping off a load of books, we ask that you fill out the provided book covers and share with the next reader what you loved about the book you are sharing. Pass along a bit about your experience with the book and help strengthen connections in our community. Book covers are available in the Gallery.

ArtCentral's RE:Create is funded through a Community Innovation Grant from the Bush Foundation. Donated materials and volunteer time from local community members are also key to the success of this project.

The Matthews Opera House & Arts Center was selected in 2016 as a recipient of a \$200,000 Bush Foundation Community Innovation grant for ArtCentral, a community collaboration to centralize the arts as an integrated asset for inclusivity, economic development, and sustained outreach in the Spearfish community. Community Innovation grants support organizations, working in collaboration with others, to use problem-solving processes that lead to more effective, equitable and sustainable solutions for challenges that face their communities.
